

ARTISAN-TL CANOPY

Exterior Sun Control 10 71 13

Artisan-TL shade canopies are an excellent solution for protecting entries and shading windows and interior spaces. The sleek aluminum frame and translucent panel are resilient and attractive, upgrading the look and functionality of the outside of your home. Pre-engineered for most conditions, the Artisan-TL canopy provides economical design options to reduce the sunlight entering your home.

Artisan-TL canopies are modular and built with all aluminum construction with stainless-steel hardware. All Artisan canopies arrive ready for installation with a super-durable architectural coating.

Trex Shade Artisan-TL canopies are designed, engineered and manufactured by Structureworks.

Canopy Configuration:

Extruded aluminum components, solid connections and stainless steel tie-backs.

Canopy Widths:

4', 6', 8', 10', Custom up to 10'

Canopy Projections:

3' and 5'

Fascia Size:

6" High

Mounting Plates:

4" Square

Canopy Wall Attachment:

Through bolt and mechanically fastened.

Integrations:

Aura low-voltage lighting can be integrated into canopy components. Wiring and mounting provisions can be included for accessories such as fans, heaters, and A/V equipment.

Submittals

Structureworks will submit shop drawings illustrating plans, elevations, sections and details showing spacing of components and connections. We can provide 2D and 3D CAD files for project-specific drawings, as well as samples of material finish and color options.

As required, Structureworks can perform structural engineering services and submit an engineered plan set prepared by a licensed professional engineer.

Finish

Structureworks uses a multi-step powder coat process to provide an AAMA 2604 compliant low-maintenance finish on aluminum canopies that provides excellent outdoor durability, gloss retention and fade resistance in a variety of colors, sheens, and textures. Simulated woodgrain powder coat can be provided on some components for a low-maintenance wood look.

Engineering

Engineering is a critical step in many projects. Structureworks will engineer a canopy as part of the design process. Our engineering department handles the loads and calculations, connections design, and issues stamped plan sets for permitting. Licensed in 50 states and DC, Structureworks can engineer an architectural canopy to meet your project requirements.

Maintenance

Aluminum canopies are designed to provide a long service life with very little maintenance. Our super-durable architectural coating will provide an attractive, high-quality finish for many years. Inspect mechanical fasteners yearly and adjust as needed

Warranty

30-Year Limited Warranty for canopies. 10-Year Limited Warranty on powder coat finish.

Notes:
